Description

The Center for Financial Markets and Policy (CFMP) has been hosting a Global Virtual Seminar Series on Fintech every Friday since the beginning of the coronavirus pandemic. On Friday, January 29, CFMP was delighted to bring together scholars to present their research for AI in Asset Management Day. Bryan

Kelly presented the paper: “Is there a replication crisis in finance?,” by Theis Ingerslev Jensen, Bryan Kelly and Lasse Pedersen. Full recording of AI in Asset Management Day: <https://www.youtube.com/watch?v=vDFxq...> The papers from AI in Asset Management Day can be found here: <https://finpolicy.georgetown.edu/ai-i...> Learn about the Center for Financial Markets and Policy's upcoming events: <https://finpolicy.georgetown.edu/news...>
